Offline activation is a 2-step process.

First, you will be asked to save the Request File: save it to a USB stick or other portable format, so that you can go to a computer with internet access. There, go to the URL shown below to upload your Request File.

The web page will then create your Activation File. Bring that file back to this computer and run ZBrush again. You will be given the opportunity to "Finish Offline Activation" and load the Activation File that you just generated.

Write down the URL below before continuing.
